

READ ME

This folder contains files and datasets required to reproduce results reported in Sumaktoyo, Nickerson, and Keane (2016).

=====

File descriptions are as follow:

"1. Jan04 ToJoin.do"

This is a STATA do-file used to prepare raw data from the January 2004 deliberative polls. It creates a STATA data file "04JanuaryToJoin.dta"

"2. Oct04 ToJoin.do"

This is a STATA do-file used to prepare raw data from the October 2004 deliberative polls and combine it with "04JanuaryToJoin.dta" to create a data file "04Combined.dta"

"3. Combined Analysis"

This is a STATA do-file that analyzes "04Combined.dta" and produces outputs reported in the article and the online supplementary appendix. It writes the outputs as Word and Excel files.

"4. Composition.R"

This is an R-script that produces Figures A1, A2, and A3 in the online supplementary materials. It takes "04Combined.csv" as input, which is simply a CSV version of "04Combined.dta"

"5. RI tools"

This is an R-script that runs RI tools package to check covariates balance. It takes "04Combined.csv" as input.
